

plan (OPLAN 10407). Furthermore, the OPLAN requires SFOR to develop detailed criteria for each of these benchmarks, to be approved by the North Atlantic Council, which will provide a more specific basis to evaluate progress. SFOR will develop the benchmark criteria in coordination with appropriate international civilian agencies.

Second, with regard to timelines, the United States proposed that NATO military authorities provide an estimate of the time likely to be required for implementation of the military and civilian aspects of the Dayton Agreement based on the benchmark criteria. Allies agreed to this approach on June 10. As SACEUR General Wesley Clark testified before the Senate Armed Services Committee June 4, the development and approval of the criteria and estimated target dates should take 2 to 3 months.

Third, with regard to a review process, NATO will continue the 6-month review process that began with the deployment of the Implementation Force (IFOR) in December 1995, incorporating the benchmarks and detailed criteria. The reviews will include an assessment of the security situation, an assessment of compliance by the parties with the Dayton Agreement, an assessment of progress against the benchmark criteria being developed by SFOR, recommendations on any changes in the level of support to civilian agencies, and recommendations on any other changes to the mission and tasks of the force.

While not required under Public Law 105-174, we have sought to further utilize this framework of benchmarks and criteria for Dayton implementation among civilian implementation agencies. The Steering Board of the Peace Implementation Council (PIC) adopted the same framework in its Luxembourg declaration of June 9, 1998. The declaration, which serves as the civilian implementation agenda for the next 6 months, now includes language that corresponds to the benchmarks in the March 3 certification to the Congress and in the SFOR OPLAN. In addition, the PIC Steering Board called on the High Representative to submit a report on the progress made in meeting these goals by mid-September, which will be considered in the NATO 6-month review process.

The benchmark framework, now approved by military and civilian implementers, is clearly a better approach than setting a fixed, arbitrary end date to the mission. This process will produce a clear picture of where intensive efforts will be required to achieve our goal: a self-sustaining peace process in Bosnia and Herzegovina for which a major international military force will no longer be necessary. Experience demonstrates that arbitrary deadlines can prove impossible to meet and tend to encourage those who would wait us out or undermine our credibility. Realistic target dates, combined with concerted use of incentives, leverage and pressure with all the parties, should maintain the sense of urgency necessary to move steadily toward an enduring peace. While the benchmark process will be useful as a tool both to promote and review the pace of Dayton implementation, the estimated target dates established will be notional, and their attainment dependent upon a complex set of interdependent factors.

We will provide a supplemental report once NATO has agreed upon detailed criteria and estimated target dates. The continuing 6-month reviews of the status of implementation will provide a useful opportunity to continue to consult with Congress. These reviews, and any updates to the estimated timelines for implementation, will be provided in subsequent reports submitted pursuant to Public Law 105-174. I look forward to continuing to work with the Congress in pursuing U.S. foreign policy goals in Bosnia and Herzegovina.

William J. Clinton

**Message to the Congress
Transmitting the District of
Columbia Budget Request
July 28, 1998**

To the Congress of the United States:

In accordance with section 202(c) of the District of Columbia Financial Responsibility

and Management Assistance Act of 1995, I am transmitting the District of Columbia's Fiscal Year 1999 Budget Request Act.

This proposed Fiscal Year 1999 Budget represents the major programmatic objectives of the Mayor, the Council of the District of Columbia, and the District of Columbia Financial Responsibility and Management Assistance Authority. It also meets the financial stability and management improvement objectives of the National Capital Revitalization and Self-Government Improvement Act of 1997. For Fiscal Year 1999, the District estimates revenues of \$5.230 billion and total expenditures of \$5.189 billion resulting in a \$41 million budget surplus.

My transmittal of the District of Columbia's budget, as required by law, does not represent an endorsement of its contents.

William J. Clinton

The White House,
July 28, 1998.

Remarks to the Education International World Congress

July 29, 1998

Thank you. First of all, let me thank my longtime friend Mary Hatwood Futrell for that wonderful introduction. And thank you for your warm welcome. I thank the leaders of our education organizations, Bob Chase and Sandy Feldman, for their work, and welcome all of the members of EI here to the United States. I am delighted to join in your Second Congress on your final day in Washington. I hope you've had a successful meeting; even more, I hope you will be going home with new energy for your lifetime commitment to your children and the future of your nations.

It is always an honor for me to meet with educators. As President, I have had the privilege of visiting schools around our Nation and around the world. And wherever I have been, whether in a small village in Uganda or a poor neighborhood in Rio de Janeiro, a town in California or an inner-city school in Chicago or Philadelphia, I always meet

teachers whose dedication to their students is nothing short of heroic, men and women for whom kindling the spark of possibility in every child, from that once-in-a-lifetime mathematics prodigy to a young girl who dreams of being the very first in her family just to finish school and go on to college.

For those people, teaching is not a job, but a mission. I know that, for you, it is such a mission. So let me thank you and your 23 million colleagues across the world for making the education of our world's children your life's work.

We are living in an era of unprecedented hope and possibility but profound challenge. A technological revolution is sweeping across the globe. It is changing the way we live and work and relate to each other. It is binding our economies closer together, whether we like it or not. It is making our world smaller. Today, 100 million people are logging onto the Internet. In just 3 years, that number will be about 700 million.

With all these changes come new challenges. We know that new democracies must be very carefully tended if they are to take root and thrive. We know that with technology advancing at rapid speed, the best jobs and the best opportunities will be available only to those with the knowledge to take advantage of them. We know that if we do not take action, dangerous opportunity gaps between those people and those nations who have these skills and those who do not have them will grow and deepen.

The best way, therefore, to strengthen democracy, to strengthen our Nation, to make the most of the possibilities, and to do the best job of meeting the challenges of the 21st century is to guarantee universal, excellent education for every child on our planet.

Where once we focused our development efforts on the construction of factories and powerplants, today we must invest more in the power of the human mind, in the potential of every single one of our children. A world-class education for all children is essential to combating the fear, the ignorance, the prejudice that undermine freedom all across the globe today in the form of ethnic, religious, and racial hatreds. It is essential to creating a worldwide middle class. It is essential to global prosperity. It is essential
